Proizvođač: AMD

A close-up, angled view of an AMD Ryzen processor. The processor is a square, metallic chip with rounded corners, mounted on a green printed circuit board (PCB). The top surface of the chip is silver-colored and features the "AMD RYZEN" logo in a bold, black, sans-serif font. The "AMD" logo is smaller and positioned above the word "RYZEN". The processor is shown from a perspective that highlights its thickness and the connection points on the edges of the PCB.
