### Product Line

can rest easy knowing that your important data is encrypted via the discrete Trusted Platform Module (dTPM) 2.0 chip. You can also keep the outside world out thanks to ThinkShutter, a physical cover to close the webcam when you're not using it. Additional security options, like the fingerprint reader integrated into the power button or the IR camera for face login add more protection.

Tough as nails MIL-SPEC tested to ensure reliability, the ThinkPad E14 (AMD) won't let you down. Our ThinkPads undergo a range of testing like hinge life-cycle durability, fan testing to keep thermals in check, vibration and shock tests for everyday handling and transporting, and even keyboard testing to verify sturdiness and longevity of keys and components.
