#### Products use

##### 1. Wireless pairing

A Long press the multi-function buttons of both sides at the same time until the LED flashing in red and blue alternately or blue, and release your hands, the both sides could pair automatically.

Remark: The earphones could be self-paired once open, but if it's not paired, please refer to the below steps to pair the earpieces.

B Long press the multi-function buttons of both sides at the same time until the LED flashing in red and blue alternately. Then double click either side to enter pairing mode. When they are paired successfully, the main earphone continues to flash in red and blue alternately and the other earphone flashes in blue once every 5 seconds.

C. Turn on the bluetooth on your device and choose i9s-tws to connect. when the LED of both sides flash slowly in blue, the earphones connect with your device successfully.

D. The earphones will be automatically paired after the first pairing is successful. Earphones and cell phones are automatically linked if earphones working for the same user.
