Šifra: 34588

Kategorija proizvoda: Akcione kamere i oprema

Proizvođač: POLAR PRO

Cena: 5.367 rsd.

Engineered specifically for the HERO7 Black, HERO6 Black, HERO5 Black Cameras and Karma GimbalIncludes: ND8, ND16 and ND32 filters and custom hard caseUltra-light construction ensures smooth and safe gimbal operationPolarPro HD glass delivers crystal clear images and videoLifetime WarrantyThe PolarPro Hero5 Starter Filter 3-Pack is the perfect filter set to start filming with your GoPro Karma and Hero6 / Hero5 Black camera. These filters help reduce the Hero6 / Hero5's native high shutter speed resulting in smooth cinematic aerial content. The ND8 filter is excellent for reducing shutter to the sweet spot in partly cloudy conditions. The ND16 filter provides the correct amount of light reduction for filming on sunny days. Finally, the ND32 filter reduces 5 f-stops of light for filming on extremely bright and sunny days. This filter 3-pack is perfect for Hero5 users just getting into aerial videography and can be upgraded to the professional filter set down the road. Each filter is constructed with PolarPro's AirFrame™ construction enabling an ultra-lightweight design for safely working with the GoPro Karma and gimbal. This GoPro Karma Filter set will enable you to capture smooth cinematic videos and take your content to the next level.
