Šifra: 34594

Kategorija proizvoda: Oprema za foto aparate

Proizvođač: POLAR PRO

Cena: **3.750,00** rsd.

The Limited Collection contains four filters for very bright lighting conditions. Two of the filters feature a rotating polarizer that will cut glare off of reflective surfaces and increase saturation while the other two are neutral density filters without polarization for a more natural color profile. The innovative lightweight magnetic design allows for easy installation and quick changes while in the field. Backed by PolarPro's lifetime warranty, our filter designs are 100% gimbal safe. Key Features: Includes ND32, ND64, ND32/PL, and ND64/PL Aluminum Frame engineered to be lightweight and gimbal compatible Cinema Series Glass produces the lowest refractive index available and a hyper neutral color profile 16 layers of anti-reflective, anti-scratch, anti-oil & anti-water coatings Magnetic design rated to 35 mph forces
