Turn Everywhere 4G into N300 Wi-Fi

With 4G Cat.4 standards, LT400 Outdoor communicates with a 4G tower with speeds of up to 150 Mbps download and 50 Mbps upload. It features a N300 Wi-Fi, providing reliable network for web browsing, video streaming, surveillance, and POS services.

Boosted Wi-Fi Coverage with Beamforming

Tested Wi-Fi coverage performance in four different scenarios, achieved by Beamforming technology and two built-in antennas. If your space is too large for one Cudy 4G Outdoor Router to cover, you can expand your Wi-Fi coverage into a Mesh network by adding another Cudy AP.
