Turn Everywhere 4G into Speedy AC1200 Wi-Fi

With 4G Cat. 4 standards, LT500 Outdoor communicates with a 4G tower with speeds of up to 150 Mbps download and 50 Mbps upload. With MU-MIMO and dual-band features, the AC1200 Wi-Fi shares the fast 4G with over 30 devices while minimizing the latency.

Boosted Wi-Fi Coverage with Beamforming

Tested Wi-Fi coverage performance in four different scenarios, achieved by Beamforming technology and two built-in antennas. If your space is too large for one Cudy 4G Outdoor Router to cover, you can expand your Wi-Fi coverage into a Mesh network by adding another Cudy AP.
